

# FREAKY FISH

Jellyfish | Kraken | Mariana Trench | Sci-Fi

## JELLY FISH

The great thing about Jellyfish is how unnatural they look; their gelatin like umbrella look with all the tentacles that drape from it is great

## KRAKEN

We simply know as a Squid.....but tell that to sailors back then. Octopus are also cool and creepy looking

## MARIANA TRENCH

Hey, check out this link.....enough said!

<http://news.distractify.com/geek/science/bizarre-creatures-of-the-mariana-trench-i-am-suddenly-terrified-of-open-water/>

## SCI-FI MOVIES

I really encourage you to check images from these movies as the artist hired to create the creatures are amazing!

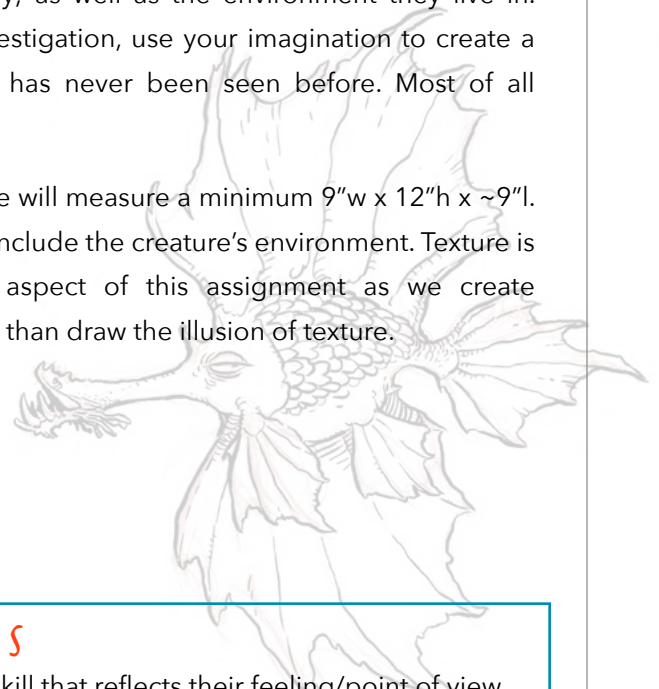

## COLUMBUS SEA MONSTERS

"Ummm.....what's *that*???" I don't doubt that was going through many sailor's mind when they sailed off with Columbus in 1492.

For this project, consider all of the creatures in the ocean both current and extinct; the evolution of species; real and imaginary; as well as the environment they live in. From this investigation, use your imagination to create a creature that has never been seen before. Most of all have fun.

Your sculpture will measure a minimum 9" w x 12" h x ~9" l. You need to include the creature's environment. Texture is another big aspect of this assignment as we create texture rather than draw the illusion of texture.

## STANDARDS

- 2.1 Create original works of art of increasing complexity and skill that reflects their feeling/point of view
- 3.0 Understanding the historical contributions and cultural dimensions of the visual arts
- SL5 Strategic use of media in presentation to enhance understanding of findings, reasoning, evidence
- WHST2 Write informative text, including the narration of historical events or technical processes.
